EASY TO INSTALL

Nothing installs easier or better.

When it comes time to renovate, you will be amazed how easy it is to install Beonstone products. The stone siding panels are light and easy to handle. Just set them in place and screw them on. It's that simple! In just a few hours, the architectural style of a room or even your whole house will have a fresh new look!

PERFECT ADDED VALUE

Nothing offers greater value.

The distinctive and warm appeal of natural stone is available for a fraction of the cost! No one will be able to tell the difference—you alone will know that the secret is Beonstone panelized stone siding.

HIGH-PERFORMANCE

Beonstone—the ideal product!

Durable and versatile, Beonstone panelized stone siding products are designed for both interior and exterior applications, thanks to their integrated drainage system. No particular structure is required: the siding you choose can be installed directly onto a standard framed wall and works with any type of building. Thinking of renovating or building?

Beonstone is the perfect choice for any project.

50-YEAR WARRANTY

Beonstone panelized stone siding is remarkably durable. For this reason, the structural integrity of the concrete and the performance of Beonstone architectural panels are guaranteed for 50 years from the date of purchase when installed in accordance with applicable codes and procedures on a structure that meets local building codes.

COLOURS

Perfect harmony is the result when architectural features offer a balanced blend of various textures, forms and colours. The product colours in this brochure are as true as photography and printing will allow. We strongly suggest, however, that you base your final choice of product colour on an actual sample rather than on the images in the brochure. Some pictures are simulated.

AN UNPRECEDENTED EASE OF INSTALLATION

No mortar, no glue and no mess.

The Beonstone panelized stone siding concept offers a truly unique design. A few simple tools are all you need to complete stylish and durable interior or exterior projects. With light, easy-to-use Beonstone panelized stone siding, installation has never been easier. Simply clip in place and fasten—that's all it takes.

No mortar, no glue, no mess.

There are no specific structural requirements. You can install the panels inside or outside directly on a partition wall or concrete foundation. If you wish, you can begin by installing compressed panels for better insulation.

Foundation

D.RAIN PATENTED SYSTEM

The D.RAIN system built into the back of every panel automatically aligns, blocks and anchors the panel and provides for safe drainage in the event of water infiltration.

Mechanical anchoring system

- · Panels attach firmly
- · Maximum stability

Coloured concrete

- · Will not discolour
- · Colour remains intact even if the panel is damaged

Drainage and air flow

- · Prevents excess humidity and mildew
- · An air space allows the wall to ventilate
- · Prevents water infiltration from contact with wall structure

Self-aligning and self-blocking system

- · Easy to install
- · Structurally strong
